EXECUTIVE OFFICER

Dear Supervisors:

**AUTHORIZATION TO EXTEND CONTRACT FOR THE
RISK MANAGEMENT INFORMATION SYSTEM
(ALL DISTRICTS – 3 VOTES)**

CHIEF INFORMATION OFFICER RECOMMENDATION:

APPROVE (X) APPROVE WITH MODIFICATIONS () DISAPPROVE ()

SUBJECT

This recommendation by the Chief Executive Office (CEO) and County Counsel seeks the Board's approval of Amendment No. 4 to Contract No. 73275 with Risk Technologies, Inc. (RTI), for maintenance and repair services of the Risk Management Information System (RMIS), to extend the term of the Contract, effective December 7, 2012, for a base period of twelve (12) months through and including December 7, 2013, and an optional period of six (6) months for the period December 8, 2013 through June 8, 2014.

JOINT RECOMMENDATION WITH COUNTY COUNSEL THAT THE BOARD:

1. Approve and instruct the Chairman to sign the attached Amendment to extend Contract No. 73275 with RTI for an additional base term of twelve (12) months beginning December 7, 2012, and continuing through December 7, 2013, at a base cost of \$819,957 for maintenance, plus cost for any work orders.
2. Delegate authority to the Chief Executive Officer (CEO) and County Counsel, as joint Program Directors, to extend Contract No. 73275 for another six (6) months, if needed, for the period December 8, 2013 through June 8, 2014, at a cost of \$409,979.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

In approving the recommended actions, the County of Los Angeles (County) will continue to receive uninterrupted RMIS services for the period. Without the extensions, this Contract will expire on December 6, 2012.

In late 2011, County Counsel began implementation of an e-billing system, CT Tymetrix T360, which interfaces with RMIS to provide streamlined processing and enhanced cost-control tools for attorney billings.

The CT Tymetrix T360 Contract includes an option for "matter management" functionality, which appears to have the capacity to replace RMIS functionality. County Counsel and the CEO Risk Management Branch have exercised the "matter management" option in the CT Tymetrix T360 Contract, which, when implemented, will provide lower-cost services, and is a replacement for the current RMIS system. Extending the current Contract with RTI will allow the CEO and County Counsel to fully implement and test the CT Tymetrix T360 system, and to migrate RTI users. Once the new system is fully functional and the County accepts the CT Tymetrix T360 system, Contract No. 73275 will be terminated.

Implementation of Strategic Plan Goals

The services provided under this Contract support the County's Strategic Plan Goal One, Operational Effectiveness, by providing a centralized claim and litigation database that the CEO, County Counsel, County departments, and County third-party administrators utilize to improve the effectiveness of Countywide risk management and litigation activities.

FISCAL IMPACT/FINANCING

Funding for system upgrade projects and maintenance and support have been included in the Insurance Budget for Fiscal Year 2012-13 and will be included in the Proposed Budget for Fiscal Year 2013-14.

In Contract year 2011-12, the CEO expended \$876,900 for maintenance and \$132,308 for work orders.

FACTS AND PROVISIONAL/LEGAL REQUIREMENTS

On March 6, 2001, the Board approved the Contract with RTI to procure and maintain RMIS and authorized the CEO to execute up to six (6) annual Contract renewal options. On March 1, 2005, the Board approved Amendment No. 2 to the Contract and instructed the CEO and County Counsel, as joint Program Directors, to seek the Board's approval before executing each annual renewal option for enhanced maintenance services, and to provide justification for the renewal, based upon outcome measurement methodology. On September 8, 2009, the Board authorized the CEO to execute Amendment No. 3, which added two (2) additional annual renewal options to the Contract as part of the contract extension/cost reduction initiative. The current term expires on December 6, 2012 and, upon the Board's approval of the Contract extension, the Contract will be extended from December 7, 2012 to December 7, 2013, with an option to extend for an additional six (6) months, December 8, 2013 through June 8, 2014.

In October 2009, the CEO and County Counsel worked together to successfully implement the departmental reporting functions of the Cognos-based Online Risk Business Intelligence Tool (ORBIT) to distribute claims-related reports to all County departments on a monthly basis. The CEO and County Counsel continue to work closely to report to the Board information concerning claims and litigation.

As noted earlier, the CEO and County Counsel agreed to implement the CT Tymetrix T360's "matter management" functions as a replacement for the current RMIS. The "matter management" option consists of various work orders, which are anticipated to be completed by the second quarter of Fiscal Year 2013-14. To provide adequate time to conclude work orders and fully migrate RMIS users and historical data to the CT Tymetrix T360 system, while providing uninterrupted services through the current RMIS system, the current RMIS agreement needs to be extended. The CEO and County Counsel anticipate that a period of twelve 12 months with an option to extend an additional six (6) months will be adequate for the County to implement, test, make further modifications, if necessary, and accept the expanded CT Tymetrix T360 system.

From March 6, 2001 through September 30, 2012, the CEO has spent a total of \$12,305,324 on RMIS, including system startup, system implementation, maintenance and support, and upgrades and modifications. Total anticipated contract expenditures through December 6, 2012, including work orders in progress, is \$12,710,594. The cost for this extension period will be \$1,229,936 for maintenance and support plus the costs of any outstanding modifications/upgrades.

This Amendment updates the Contract to include Board mandated provisions for the Local Small Business Enterprise Preference Program and Contractor Alert Reporting Database (CARD).

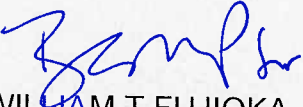

IMPACT ON CURRENT SERVICES

There is no impact on current services. Extension of this contract will ensure uninterrupted continuation of critical services to the CEO, County Counsel, County departments, and County third party administrators, through June 8, 2014. The Chief Information Officer recommends approval of the actions. (Attachment I)

CONCLUSION

Upon approval by the Board, please return two signed originals of the Amendment and one adopted copy of this letter to the CEO Risk Management Branch, attention Steven E. NyBlom, Acting Risk Manager.

Respectfully submitted,

business analysis**

PROJECT GOALS AND OBJECTIVES:

To extend the Risk Management Information System (RMIS) contract and maintain system functionality until its replacement (currently in development by County Counsel) is developed, tested, and implemented.

BUSINESS DRIVERS:

The RMIS system, used by over 200 users, including County Counsel, CEO Risk Management Branch, and the County's third-party claim administrators for general and professional liability, is critical to the effective management of litigation and liability claims.

PROJECT ORGANIZATION:

The RMIS system has a formal governance structure composed of representatives from County Counsel and the CEO Risk Management Branch. The RMIS Contract is jointly managed by the CEO and County Counsel.

	<p>PERFORMANCE METRICS:</p> <p>The RMIS system has no significant performance issues, and in the period preceding the Contract extension, existing work orders will be closed out. For the Contract extension period beginning 12/7/2012, the only work orders anticipated are those necessary for data migration and transition to the new system. System performance is anticipated to remain stable through the Contract extension period.</p> <hr/> <p>STRATEGIC AND BUSINESS ALIGNMENT:</p> <p>This project is consistent with the County's Strategic Plan goals and Strategic Technology Directions for fiscal stewardship and maximizing effectiveness of the County's operations. It supports the continued delivery of efficient claims and litigation management during the transition period to a more robust and cost-effective solution.</p> <hr/> <p>PROJECT APPROACH:</p> <p>County Counsel leveraged its contract with TyMetrix for matter management and e-billing of attorney expenses by including an option to replicate the functionality of the RMIS system at a low cost. This approach will provide cost-savings and efficiencies due to the advanced features and flexibility of the TyMetrix platform. The TyMetrix platform is a commercial off-the-shelf system, reducing the County customization expenditures for new functionality.</p> <hr/> <p>ALTERNATIVES ANALYZED:</p> <p>The CEO documented RMIS system requirements in preparation of issuing an RFP to replace the current system. The CEO and County Counsel jointly evaluated alternatives, and after discussing system requirements, business needs, and cost the decision was made to extend the RMIS Contract until County Counsel could develop and implement the RMIS replacement within the TyMetrix system.</p>
<p>Technical analysis</p>	<p>ANALYSIS OF PROPOSED IT SOLUTION:</p> <p>The TyMetrix system meets all County Counsel and Auditor-Controller security and confidentiality requirements, including server location, configuration, and highly customizable user access settings. The TyMetrix system is a "Software as a Service" platform which will improve efficiency by eliminating the hardware, software, maintenance fees, and dedicated County resources that are currently needed to support the RMIS system.</p>
